## KINDERGARTEN WORK.

Mrs. Treat Lectures to the Mothers and Teachers.

The call for a general meeting of all those interested in kindergarten work yesterday afternoon at the Y. M. C. A. parlors was answered by about 100 women—mothers, teachers and those who have the welfare of common humanity at heart.

Mrs. Treat who was in charge of the meeting stated that the object was the good of the children. Fifty years ago Horace Mann started the cry, more teachers, more schools, more education. The result is apparent. School-houses began to rise all over the country and now school houses dot nearly every hillside. He also said that with the advance of education crime would diminish but reports show that in Sing Sing prison eighty per cent of the prisoners are graduates of public schools. It is proved that education has not lessened crime. In order that the child should grow right, it must be started right. No one would build a beautiful home on a poor foundation. No education should be laid upon a good foundation, the time of "cure" is past. This is an age of prevention.

First starting with the homes. Let them be harmonious and beautiful then look to it that the children are right. The penitentiary, the reform school and the police headquarters are cures and the kindergarten is the prevention. Everywhere the kindergarten asserts itself as a character builder. All the senses are used as the tools of the spirit. Let the child grow in the spirit of holiness. Froebel says there are three things that prevent mothers and teachers doing as they ought by children—ignorance, prejudice or custom, and error. In this day of enlightenment there is no excuse for the first though all are more or less under the thrall of the second. The third, error, is common to all for none are perfect. After a short exposition of Froebel's theory the meeting adjourned.

Study classes were formed, the meetings to be held on Wednesday afternoon, for the present at the Y. M. C. A. rooms. The advanced class will be held from 2:30 p. m. to 3:30, and next week's lesson will be a review of "The Bird's Nest." The new class will meet at the same place at 3:30 o'clock continuing one hour.

## Abraham Lincoln

When leaving his home at Springfield, Ill., to be inaugurated as president of the United States, made a farewell address to his old friends and neighbors, in which he said, "Neighbors, give your boys a chance."

These words come with as much force today as they did thirty years ago.

How give them this chance?

Up in the northwest is a great empire waiting for young and sturdy fellows to come and develop it and "grow up with the country." All over this broad land are the young fellows, the boys that Lincoln referred to, seeking to better their condition and get on in life.

Here is their chance.

The country referred to lies along the Northern Pacific railroad. Here you can find pretty much anything you want. In Minnesota, and in the Red river valley of North Dakota, the finest of prairie lands fitted for wheat and grain, or as well for diversified farming. In Western North Dakota and Montana are stock ranges limitless in extent, clothed with the most nutritious of grasses.

If a fruit farming region is wanted, there is the whole state of Washington to select from.

As for some delights, the Northern Pacific railroad takes through a country unparalleled. In crossing the Rocky, Ratter Root and Cascade mountains the greatest scenery to be seen in the United States from car windows is found. The wonderful bad lands, wonderful in graceful form and glowing colors, are a sight. Lakes Pend d'Oreille and Coueur d'Alene are alone worthy of a transcontinental trip, while they are the fisherman's Ultima Thule. The ride along Clark's Fork of the Columbia river is a daylight dream. To cap the climax, this is the only way to reach the far famed Yellowstone Park.

T. reach and see all this the Northern Pacific railroad furnishes trains and service of unsurpassed excellence. The most approved and comfortable palace sleeping cars; the best dining cars that can be made; Pullman tourist cars good for town first and second class passenger; easy riding day coaches, with baggage, express and postal cars, all drawn by powerful Baldwin locomotives, make a train fit for royalty itself.

Those seeking for new homes should take this train and go and see the land. To be prepared, write to CHAS. F. FEE, G. P. & T. A., St. Paul, Minn.

A Contractor's Advice.

One bottle did for me more good than six months' other treatment, and I feel it my duty to testify in its behalf so others may try it and get cured. Your truly.
